

VEGETABLES:

Arugula

Arugula: (Approx. 20)

Arugula Greens (2021)

- Source: SESE
- Organic
- Best in cool weather
- Full sun/Annual
- Direct sow ¼" deep into soil
- Keep soil moist but not soggy
- Days to Maturity – 21

Bean Antigua Bush

Bush Bean: (Approx. 10)

Antigua Bush Bean (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/ annual
- Direct sow 1" deep into soil
- Days to Maturity – 55

Bean Quincy Pinto

Pinto Bean: (Approx. 10)

Quincy Pinto Bean (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/ annual
- Direct sow 1" deep into soil
- Days to Maturity – 106

Bean Roma II Bush

Bush Bean: (Approx. 8)

Roma II Bush Bean (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/ annual
- Direct sow 1" deep into soil
- Days to Maturity – 59

Beet Detroit Dark Red

Beet: (Approx. 10)

Detroit Dark Red Beet (2021)

- Source: High Mowing Organic Seeds
- Heirloom
- Best in cool weather
- Full sun/biennial
- Direct sow ½" deep into soil
- Soil pH above 6.0
- Days to maturity -50

Beet Early Wonder Tall Top

Beet: (Approx. 10)

Early Wonder Tall Top (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/biennial
- Direct sow ½" deep into soil
- Soil pH above 6.0
- Days to Maturity – 45

Broccoli Hon Tsai Tai Flowering

Broccoli: (Approx. 10)

Hon Tsai Tai Flowering (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/ annual
- Direct sow 1" deep into soil
- Best grown in late summer
- Days to Maturity – 37

Cantaloupe Hybrid Parks Whopper

Cantaloupe: (Approx. 5)

Parks Whopper (2021)

- Source: Park Seeds
- Hybrid
- Best in warm weather
- Full sun/Hardy annual
- Make a soil mound 4x12
- Sow 3-4 seeds 1" deep per mound
- Days to Maturity – 80

(PLEASE NOTE: SEEDS IN RED ARE CURRENTLY DEPLETED)

Carrot Cosmic Purple

Carrot: (Approx. 20)

Cosmic Purple (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/biennial
- Direct sow ¼" deep into soil
- Days to Maturity – 70

Carrot Napoli

Carrot: (Approx. 20)

Napoli (2021)

- Source: High Mowing Organic Seeds
- Hybrid
- Best in cool weather
- Full sun/biennial
- Direct sow ¼" deep into soil
- Days to Maturity – 55

Carrot Starburst Blend

Carrot: (Approx. 20)

Starburst Carrot Blend (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/biennial
- Direct sow ¼" deep into soil
- Days to Maturity – 70

Chard Rainbow Blend

Chard (Approx. 10)

Rainbow Blend Chard (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/biennial
- Direct sow ½" deep into soil
- Days to Maturity – 60

Collards Georgia

Collards (Approx. 10)

Georgia Collards (2021)

- Source: High Mowing Organic Seeds
- Heirloom
- Best in cool weather
- Full sun/biennial
- Direct sow ¼" deep into soil
- Days to Maturity – 70

Cucumber Marketmore 76

Cucumber (Approx. 10)

Marketmore 76 Cucumber (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in warm weather
- Full sun/annual
- Direct sow ½" deep into soil or
- Transplant one row in center of bed.
- Days to Maturity – 65

Cucumber National Pickling

Cucumber (Approx. 10)

National Pickling (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in warm weather
- Full sun/annual
- Direct sow ½" deep into soil or
- Transplant 1 row in center of bed.
- Days to Maturity – 52

Cucumber Suyo Long

Cucumber (Approx. 5)

Suyo Long Cucumber (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in warm weather
- Full sun/annual
- Direct sow ½" deep into soil or
- Transplant 1 row in center of bed.
- Days to Maturity – 60

Eggplant Black Beauty

Eggplant (Approx. 10)

Black Beauty (2021)

- Source: SESE
- Heirloom
- Best in high heat
- Full sun/annual
- May not set fruit under 70°F
- Transplant 2-3' apart
- Days to Maturity – 74

Kale Ironman Mix

Kale (Approx. 20)

Ironman Kale Mix (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Early Spring though late summer
- Full sun/biennial
- Direct sow ¼" deep into soil
- Days to Maturity – 30

Lettuce Black Seeded Simpson

Lettuce (Approx. 20)

Black Seeded Simpson (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct sow ⅛" deep into soil
- Days to Maturity – 28

Lettuce Gourmet Blend

Lettuce (Approx. 25)

Gourmet Blend Lettuce (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct sow ⅛" deep into soil
- Days to Maturity – 28

Lettuce Lolla Rossa

Lettuce (Approx. 20)

Lolla Rossa Lettuce (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct sow ⅛" deep into soil
- Days to Maturity – 30

Melon Snow Mass

Melon: (Approx. 5)

Snow Mass (2021)

- Source: Park Seeds
- Honeydew-Japan
- Best in warm weather
- Full sun/Hardy annual
- Make a soil mound 4"x 12"
- Sow 3-4 seeds 1" deep per mound
- Days to Maturity – 90

Mustard Greens Red Giant

Mustard (Approx. 20)

Red Giant Mustard (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct sow ¼" deep into soil
- Days to Maturity – 21

Okra Cajun Jewel

Okra: (Approx. 10)

Cajun Jewel (2020)

- Source: SESE
- Heirloom
- Full, hot sun/annual
- Direct sow ¾" deep into soil
- Composted, well-drained soil
- Days to Maturity – 53-64

Pepper Hot Early Jalapeno

Pepper: (Approx. 5)

Early Jalapeno Hot Pepper (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Heat-loving
- Full sun/annual
- Transplant 18-24" apart
- Days to Maturity – 85

Pepper Hot New Mexico Joe. E. Parker

Pepper: (Approx. 7)

N.M. Joe E. Parker Hot (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Heat-loving
- Full sun/annual
- Transplant 18-24" apart
- Days to Maturity – 88

Pepper Hybrid Thai Super Chili

Pepper: (Approx. 5)

Thai Super Chili (2021)

- Source: Park Seeds
- Hybrid
- Best in warm weather
- Full sun/Hardy annual
- Sow indoors and transplant after last frost, space 2-3' apart
- Days to Maturity – 75

Pepper Mild Shishito

Pepper: (Approx. 5)

Shishito Pepper (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Heat-loving
- Full sun/annual
- Transplant 18-24" apart
- Days to Maturity – 75

Pepper Sweet California Wonder

Sweet Pepper: (Approx. 10)

Pepper Sweet California Wonder (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Heat-loving
- Full sun / annual
- Sow indoors 6-8 weeks before transplant after last frost, space 12-18" apart
- Days to Maturity – 60 for green, 80 for red

Pumpkin New England Pie

Pumpkin: (Approx. 5)

New England Pie Pumpkin (2021)

- Source: High Mowing Organic Seeds
- Heirloom
- Best in warm weather
- Full sun/annual
- Transplant or direct seed ½"-1"
- One row in center of bed
- Days to Maturity – 99

Pumpkin Owl's Eye

Pumpkin: (Approx. 5)

Owl's Eye Pumpkin (2021)

- Source: High Mowing Organic Seeds
- Hybrid
- Best in warm weather
- Full sun/annual
- Transplant or direct seed ½"-1"
- One row in center of bed
- Days to Maturity – 100

Radish Pink Beauty

Radish: (Approx. 10)

Pink Beauty Radish (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct seed ¼" into soil
- Days to Maturity – 27

Radish Schwarzer Runder

Radish: (Approx. 10)

Schwarzer Runder Radish (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct seed ¼" into soil
- Days to Maturity – 45-50

Radish Watermelon

Radish: (Approx.10)

Watermelon Radish (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/ annual
- Direct sow ¼" deep into soil
- Days to Maturity: 60

Spinach Bloomsdale Long Standing

Spinach: (Approx. 15)

Bloomsdale Long Standing Spinach (2021)

- Source: Ferry-Morse
- Organic
- Best in cool weather
- Full sun/annual
- Direct sow ¼" deep into soil with 2" spacing
- Days to Maturity – 45

Spinach Regiment

Spinach: (Approx. 10)

Regiment Spinach (2021)

- Source: High Mowing Organic Seeds
- Hybrid
- Best in cool weather
- Full sun/annual
- Direct sow ¼" deep into soil
- Days to Maturity: 37

Spinach Renegade

Spinach: (Approx. 10)

Renegade Spinach (2021)

- Source: High Mowing Organic Seeds
- Hybrid
- Best in cool weather
- Full sun/annual
- Direct sow ¼" deep into soil
- Days to Maturity: 43

Squash Winter Burgess Buttercup

Squash: (Approx. 5)

Burgess Buttercup Winter (2021)

- Source: High Mowing Organic Seeds
- Open pollinated
- Best in warm weather
- Full sun/annual
- Transplant, 1 row in center of bed
- Days to Maturity – 95

Tomato Black Cherry

Tomato: (Approx. 10)

Black Cherry Tomato (2021)

- Source: High Mowing Organic Seeds
- Open pollinated
- Best in warm weather
- Full sun/annual
- Transplant, 1 row in center of bed
- Support/trellis
- Days to Maturity – 64

Tomato Brandywine

Tomato: (Approx. 10)

Brandywine Tomato (2021)

- Source: High Mowing Organic Seeds
- Heirloom
- Best in warm weather
- Full sun / Annual
- Transplant, one 1 in center of bed
- Support/trellis
- Days to Maturity – 82

Tomato Peacevine Cherry

Tomato: (Approx. 5)

Peacevine Cherry Tomato (2021)

- Source: High Mowing Organic Seeds
- Open pollinated
- Best in warm weather
- Full sun/annual
- Transplant, one 1 in center of bed
- Support/trellis
- Days to Maturity – 78

Tomato Pruden's Purple

Tomato: (Approx. 10)

Pruden's Purple Tomato (2021)

- Source: High Mowing Organic Seeds
- Hybrid
- Best in warm weather
- Full sun/annual
- Transplant, 1 row in center of bed
- Support/trellis
- Days to Maturity – 72

Tomato Rutgers

Tomato: (Approx. 10)

Rutgers Tomato (2021)

- Source: High Mowing Organic Seeds
- Open Pollinated
- Best in warm weather
- Full sun/annual
- Transplant, 1 row in center of bed
- Support/trellis
- Days to Maturity – 75

Tomato Supernova Grape

Tomato: (Approx. 10)

Supernova Grape Tomato (2021)

- Source: High Mowing Organic Seeds
- Open Pollinated
- Best in warm weather
- Full sun/annual
- Transplant, 1 row in center of bed
- Support/trellis
- Days to Maturity – 63

Turnip Purple Top White Globe

Turnip: (Approx. 10)

Purple Top White Globe (2021)

- Source: High Mowing Organic Seeds
- Heirloom
- Best in cool weather
- Full sun/annual
- Direct sow ¾" deep into soil
- Days to Maturity – 55

Watermelon Blacktail Mountain

Watermelon: (Approx. 5)

Blacktail Mountain (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in warm weather
- Full sun/annual
- Direct sow ½" deep into soil or
- Transplant in rows 3-5' apart
- Days to Maturity – 76

Watermelon Moon & Stars

Watermelon: (Approx. 5)

Moon & Stars (2021)

- Source: High Mowing Organic Seeds
- Heirloom
- Best in warm weather
- Full sun/annual
- Direct sow ½" deep into soil or
- transplant in rows 3-5' apart
- Days to Maturity – 95-100

HERBS:

Basil Thai Siam Queen

Basil: (Approx. 10)

Thai Siam Queen (2021)

- Source: Park Seeds
- Best in warm weather
- Full sun/Annual
- Direct sow in late spring
- Thin to 12" apart
- Days to Maturity – 72

Thyme

Thyme (Approx. 25)

Thyme (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/perennial
- Seeds require light for germination
- Days to Maturity – 90

Cilantro Santo

Cilantro (Approx. 10)

Santo Cilantro (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct sow ¼" deep into soil
- Days to Maturity – 55

Dill Bouquet

Dill (Approx. 20)

Bouquet Dill (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct sow ¼" deep into soil
- Days to Maturity – 55

Parsley Giant Italian

Parsley (Approx. 20)

Giant Italian Parsley (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/biennial
- Direct sow ¼" deep into soil or transplant (recommended)
- Days to Maturity – 70

FLOWERS:

Calendula Resina

Calendula: (Approx. 10)

Resina Calendula (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct seed ¼" into soil
- Self-seeding
- Days to Maturity – 80

Cosmos Sensation Blend

Cosmos: (Approx. 20)

Sensation Blend Cosmos (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct seed ¼" into soil
- Dead-head for constant blooms
- Days to Maturity – 85

Dusty Miller Silverado

Dusty Miller (Approx. 20)

Silverado (2020)

- Source: Park Seeds
- Best in warm weather
- Full sun/Annual
- Sow outdoors, never allow to dry out
- Thin to avoid crowding
- Days to Maturity – 21

Marigold Park's Whopper Orange

Marigold (Approx. 5)

Whopper Orange (2021)

- Source: Park Seeds-Hybrid
- Full sun /Annual
- Sow indoors, never allow to dry out
- Transplant 12" apart
- Days to Maturity – 45-50

Marigold Park's Whopper Yellow

Marigold (Approx. 5)

Whopper Yellow (2021)

- Source: Park Seeds-Hybrid
- Full sun /Annual
- Sow indoors, never allow to dry out
- Transplant 12" apart
- Days to Maturity – 45-50

Sunflower Evening Colors

Sunflower: (Approx. 10)

Evening Colors Sunflower (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Best in cool weather
- Full sun/annual
- Direct seed ¼" into soil
- Do not need much care
- Days to Maturity – 85

Sunflower Large Flowered Mix

Sunflower (Approx. 10)

Large Flowered Mix (2021)

- Source: Park Seeds
- Full sun /Annual
- Direct sow in late spring
- Thin to 12" apart
- Days to Maturity – 80-120

Zinnia Giant Cactus Mix

Zinnia (Approx. 10)

Giant Cactus Mix (2021)

- Source: Park Seeds-France
- Hybrid
- Full sun /Annual
- Direct sow in late Spring
- Thin to 12" apart
- Days to Maturity – 75-90

Zinnia Orange

Zinnia: (Approx. 10)

Orange Zinnia (2021)

- Source: High Mowing Organic Seeds
- Open-pollinated
- Bloom time is mid-summer to fall
- Full sun/annual
- Transplanting is recommended
- Days to Maturity – 75-90
